

*Ordering Guide*

The diagram above is a view of the fireplace **BEFORE** installing the surround. Your dealer will need the following measurements in planning your fireplace surround. Not all measurements may apply to your installation.

- |                                  |                                  |
|----------------------------------|----------------------------------|
| _____ A — Facing Material Width  | _____ F — Hearth Width           |
| _____ B — Facing Material Height | _____ G — Hearth Height          |
| _____ C — Facing Material Depth  | _____ H — Hearth Side Projection |
| _____ D — Firebox Opening Width  | _____ I & J — Side Clearance     |
| _____ E — Firebox Opening Height |                                  |

*Additionally:*

- \_\_\_\_\_ Amount of facing material exposed each side of opening after installing surround
- \_\_\_\_\_ Amount of facing material exposed above opening after installing surround
- \_\_\_\_\_ Any other size or height restrictions
